| Enrolment status | PEDRETTI, Ray is eligible to stand for election as a resident of the Town of Cottesloe. |

I have been in Cottesloe for over a decade; it is just such a great place to live. It is a progressive suburb that embraces people from all walks of life. It is my second time in the local area, many years ago I worked at PLC as a high school teacher.

As our Town looks into the future, it is important to have good governance and a Council that reflects what the community requires, and how we achieve those goals. I am keen to be a part of creating a sustainable future that is balanced with sensible development.

My career has mainly been as a documentary/film producer, with numerous international credits. This has provided me with strong management, communication and compliance skills. I also have had previous community engagement experience in local government.

I would welcome the opportunity to represent our community as a local member of Council.

Thank you
