## **Preamble**

This Local Planning Scheme of the Town of Cottesloe consists of this Scheme Text and the Scheme Map. The Scheme Text should be read with the Local Planning Strategy for the Town of Cottesloe.

Part 2 of the Scheme Text sets out the Local Planning Framework. At the core of this Framework is the Local Planning Strategy which sets out the long-term planning directions for the local government, applies State and regional planning policies and provides the rationale for the zones and other provisions of the Scheme. In addition to the Local Planning Strategy, the Framework provides for Local Planning Policies which set out the general policies of the local government on matters within the Scheme.

The Scheme divides the local government district into zones to identify areas for particular uses and identifies land reserved for public purposes. Most importantly, the Scheme controls the types of uses and development allowed in different zones. There are particular controls included for heritage and special control areas. The Scheme Text also sets out the requirements for planning approval, enforcement of the Scheme provisions and non-conforming uses.

- d) allow for land use and development to contribute to the provision or enhancement of community facilities and services and to the public domain; and
- e) give consideration to the maintenance and enhancement of important views to and from public places as a contributor to the character and amenity of the locality and the district overall.

4.2.9 The objective of the Place of Public Assembly zone is to provide for a limited range of community-related uses including churches, halls or grounds of a nature and scale compatible with surrounding residential use and amenity.

### 4.3 Zoning Table

4.3.1 The Zoning Table indicates, subject to the provisions of the Scheme, the uses permitted in the Scheme area in the various zones. The permissibility of any use is determined by cross-reference between the list of use classes on the left hand side of the Zoning Table and the list of zones at the top of the Zoning Table.

4.3.2 The symbols used in the cross-reference in the Zoning Table have the following meanings —

- ‘P’ refer to ‘class P use’ definition in Part 1, clause 1 of the Deemed provisions;

- 'D' refer to 'class D use' definition in Part 1, clause 1 of the Deemed provisions;
- 'A' refer to 'class A use' definition in Part 1, clause 1 of the Deemed provisions; and
- 'X' refer to 'class X use' definition in Part 1, clause 1 of the Deemed provisions.

#### 4.4 Interpretation of the Zoning Table

- 4.4.1 Where a particular use falls within the definition of a general use-class and a more specific use-class mentioned in the Zoning Table, it is deemed to be excluded from the more general use-class.
- 4.4.2 Where a combination of uses exist or is proposed, each use is to be defined and classified by its specific use-class when determining its land use permissibility.
- 4.4.3 If it is proposed to carry out on land any use that does not fall within the definition of any use-class mentioned in the Zoning Table, and that cannot reasonably be determined as falling within the type, class or genus of activity of any other use class, the local government may-
- a) determine that the use is consistent with the objectives of the particular zone and is therefore permitted;
  - b) determine that the use may be consistent with the objectives of the particular zone and thereafter follow the notice procedures of clause 9.4 in considering an application for planning approval; or
  - c) determine that the use is not consistent with the objectives of the particular zone and is therefore not permitted.

#### 4.5 Additional uses

Despite anything contained in the Zoning Table, the land specified in Schedule 2 may be used for the specific use or uses that are listed, in addition to any uses permissible in the zone in which the land is situated, subject to the conditions set out in Schedule 2 with respect to that land.

*Note: An additional use is a land use that is permitted on a specific portion of land in addition to the uses already permissible in that zone that applies to the land.*

#### 4.6 Restricted uses

At the Gazettal date there are no Restricted Uses that apply to the Scheme.

*Note: A restricted use is the only use or uses that are permitted on a specific portion of land and other uses that would otherwise be permissible in the zone are not permitted.*

#### **4.7 Special use zones**

At the Gazettal date there are no Special Use Zones that apply to the Scheme.

*Note: Special use zones apply to special categories of land use which do not comfortably sit within any other zone in the Scheme.*

#### **4.8 Uses requiring planning approval**

Subject to clause 4.9 the commencement or change of use of land zoned or reserved under the Scheme requires the prior approval of the local government. A person must not commence or carry out any use or change of use of land without first having applied for and obtained the planning approval of the local government under Part 9.

*Note: The planning approval of the local government is required for both the development of land (subject of Part 8) and the use of land (subject of this Part).*

#### **4.9 Uses not requiring planning approval**

A change in the use of land from one use to another is permitted if —

- (a) the local government has exercised its discretion by granting of planning approval;
- (b) the change is to a use which is designated with the symbol 'P' in the cross reference to that zone in the Zoning Table and the proposed use complies with all the relevant development standards and any requirements of the Scheme;
- (c) the change is an extension of a use within the boundary of the lot which does not change the predominant use of the lot; or
- (d) the change is to an incidental use that does not change the predominant use of the land.

*Notes:*

1. *The planning approval of the local government is required for the development of land in addition to any approval granted for the use of land. In normal circumstances one application is made for both the use and development of land.*
2. *The local government will not refuse a 'P' use because of the unsuitability of the use for the zone but may impose conditions on the use of the land to comply with any relevant development standards or requirements of the Scheme, and may refuse or impose conditions on any development of the land.*
3. *In considering a 'D' or 'A' use, the local government will have regard to the matters set out in clause 10.2.*
4. *The local government must refuse to approve any 'X' use of land. Approval to an 'X' use of land may only proceed by way of an amendment to the Scheme.*

#### **4.10 Continued use and development – non-conforming uses**

Except as otherwise provided in the Scheme, no provision of the Scheme is to be taken to prevent —

- (a) the continued use of any land for the purpose for which it was being lawfully used immediately prior to the Gazettal date (hereinafter referred to as a non-conforming use);
- (b) the carrying out of any development on that land for which, immediately prior to the Gazettal date, an approval or approvals, lawfully required to authorise the development to be carried out, were duly obtained and are current; or
- (c) subject to clause 11.2.1, the continued display of advertisements which were lawfully erected, placed or displayed prior to the Gazettal date.

*Note:*

1. *“Land” has the same meaning as in the Town Planning Act and includes houses, buildings and other works and structures.*
2. *“Non-conforming use” has the same meaning as in the Town Planning Act.*

#### **4.11 Extension of or change to a non-conforming use**

4.11.1 A person must not —

- a) alter or extend a non-conforming use;
  - b) erect, alter or extend a building used in conjunction with or in furtherance of a non-conforming use; or
  - c) change the use of land from an existing non-conforming use to another use, other than as set out in clause 4.9 (a),
- without first having applied for and obtained planning approval under the Scheme.

4.11.2 An application for planning approval required by this clause is to be advertised in accordance with clause 9.4.

4.11.3 Despite anything contained in the Zoning Table, the local government may approve the change of use of land from an existing non-conforming use to a use that is not permitted under this Scheme, if the local government considers that the proposed use is less detrimental to the amenity of the locality than the existing non-conforming use and is closer to the intent of the zone.

4.11.4 In determining an application for a change of use of land from an existing non-conforming use to a use that is not permitted under this Scheme, or to alter or extend a non-conforming use, or to erect, alter or extend a building used in conjunction with or in furtherance of a non-conforming use, the local government is to have regard to the objectives of the zone in which the use or building is located and is to determine the development requirements applicable to the land.

#### **4.12 Termination of a non-conforming use**

- 4.12.1 Where a non-conforming use of any land has been discontinued for a period of six months the land must not be used after that period otherwise than in conformity with the provisions of the Scheme.
- 4.12.2 The local government may effect the termination of a non-conforming use by the purchase of the land, or by the payment of compensation to the owner or occupier or to both the owner and occupier of that land, and may enter into an agreement with the owner for that purpose.

*Note: Section 190 and 191 of the Town Planning Act enables the local government to purchase, or, with the consent of the Governor, compulsorily acquire land for the purpose of a local planning scheme, subject to Part 9 of the Land Administration Act 1997, that section and the Scheme.*

#### **4.13 Destruction of non-conforming use buildings**

If a building used for a non-conforming use is destroyed to 75 per cent or more of its value, the building is not to be repaired, rebuilt, altered or added to for the purpose of being used for a non-conforming use or in a manner not permitted by the Scheme, except with the planning approval of the local government.

#### **4.14 Deeming provision**

For the purposes of section 174(i)(c) of the Town Planning Act, the requirement to obtain planning approval under clause 4.11 or clause 4.13 above is deemed not to prohibit wholly or partially the continuance of the non-conforming use or the erection, alteration or extension on the land of any building in connection with or in furtherance of any non-conforming use.

#### **4.15 Special Provisions**

Despite any other provision of the Scheme, the land specified in Schedule 12 shall be developed in accordance with the special provisions set out in Schedule 12 with respect to that land.

*Note: Where a scheme amendment involves incorporation into the scheme of special provisions for the development of particular land, they are to be listed in this schedule as tied to that land.*

## PART 5 — GENERAL DEVELOPMENT REQUIREMENTS

### 5.1 Compliance with development requirements

Any development of land is to comply with the provisions of the Scheme and unless otherwise provided for in the Scheme, all development shall comply with the requirements specified in Table 2 - Development Requirements.

*Note: Development in the Development Zone is subject to the requirements in Schedule 14 and any approved Structure Plan, as required by clause 6.2.*

### 5.2 Residential Design Codes

5.2.1 A copy of the Residential Design Codes is to be kept and made available for public inspection at the offices of the local government.

5.2.2 Unless otherwise provided for in the Scheme, the development of land for any of the residential purposes dealt with by the Residential Design Codes is to conform to the provisions of those Codes.

5.2.3 The Residential Design Codes density applicable to land within the Scheme area is to be determined by reference to the Residential Design Codes density number superimposed on the particular areas contained within the borders shown on the Scheme Map or where such an area abuts another area having a Residential Design Code density, as being contained within the area defined by the centre-line of those borders.

*Note: The density and development provisions of the Residential Design Codes do not apply to short-stay accommodation (being for holiday or other temporary accommodation purposes), including hotel, motel or other types of non-permanent residential short-stay accommodation use.*

### 5.3 Special application of Residential Design Codes

5.3.1 The following provisions operate as exclusions and variations to the Residential Design Codes and apply notwithstanding any provisions to the contrary in the Residential Design Codes.

5.3.2 In this clause “**Residential Development**” means any development for residential purposes dealt with by the Residential Design Codes.

5.3.3 Building Height

Despite anything contained in the Residential Design Codes to the contrary, the building height for Residential Development shall comply with the provisions of clause 5.7.

5.3.4 Development in certain areas abutting Stirling Highway

Despite anything contained in the Residential Design Codes to the contrary, residential development in areas with a dual density code of R20/60, R30/60, R35/60 or R40/60 on the scheme map shall be in accordance with the development standards of the lower R-Code unless the residential development -

- a) has no direct vehicular access to and from Stirling Highway; and
- b) is a comprehensive redevelopment of more than one lot,

in which case the local government may permit development in accordance with the development standards of the higher R-Code.  
*AMD 8 GG 16/06/2020*

### 5.3.5 Redevelopment of existing grouped dwellings or multiple dwellings

Despite anything contained in the Residential Design Codes and notwithstanding the density codes shown on the Scheme Map, existing grouped dwellings or multiple dwellings that exceed a density code shown on the Scheme Map at the Gazettal date of the Scheme can, with the approval of the local government, be redeveloped at a density higher than that shown on the Scheme Map, equal to, but not exceeding the existing built density, subject to the proposed development —

- a) complementing the character of the streetscape;
- b) not detrimentally increasing the mass, scale or surface area of the development relative to existing development on surrounding properties;
- c) resulting in improved landscaping of the land;
- d) providing adequate and safe means of vehicular and pedestrian access to the land; and
- e) providing an adequate number of car parking spaces on the land.

Futhermore, and notwithstanding any other clause in this Scheme, for developments under this clause within the Residential and Residential Office zones, the local government may approve the development with a building height one storey higher than the maximum building height that would otherwise be applicable to the development in accordance with Table 2 if, in the opinion of the local government, the original number of dwellings (and their replacement plot ratio) cannot be appropriately accommodated on the lot without an increase in building height.  
*AMD 7 GG 13/07/18*

### 5.3.6 Mixed-use development

Despite anything contained in the Residential Design Codes to the contrary, where development which involves both Residential Development and development other than Residential Development ("Non-Residential Development") is proposed in —

- a) the Residential Office or Restricted Foreshore Centre zones, the applicable requirements shall be as specified for the Non-Residential Development in Table 2;
- b) the Town Centre or Local Centre zones, the applicable requirements shall be as specified for the Non-Residential Development in Table 2; or

- c) a Development zone, the applicable requirements shall be as specified in Schedule 14 and, if applicable, Schedule 15 and any structure plan in accordance with clause 6.2.

**5.3.7 Front setback**

Despite anything contained in the Residential Design Codes to the contrary, in the case of areas with a residential density code of R30, the local government may require an R20 front setback of 6m to be applied, for the preservation of streetscapes, view corridors and amenity.

**5.3.8 Roof Decks**  
*AMD 4 GG 27/05/16*

For the purposes of calculating the open space requirements for a residential development on land coded less than R40, roof decks are excluded.

- 5.3.8.1. Roof Deck means an open, accessible and useable flat roof and includes roof gardens, roof pools, viewing platforms and other roof top recreation space.

**5.4 Restrictive Covenants**

- 5.4.1 Subject to clause 5.4.2, a restrictive covenant affecting any land in the Scheme Area by which, or the effect of which is that, the number of residential dwellings which may be constructed on the land is limited or restricted to less than the provisions of the Residential Design Codes which apply under the Scheme, those provisions are hereby extinguished or varied to the extent that it is inconsistent with the provisions of the Residential Design Codes which apply under the Scheme.

- 5.4.2 Where clause 5.4.1 operates to extinguish or vary a restrictive covenant, the local government is not to grant planning approval to a development of the land which would, but for the operation of clause 5.4.1 have been prohibited, unless the application for planning approval has been dealt with as an 'A' use and has complied with the notice requirements of clause 9.4.

**5.5 Variations to site and development standards and requirements**

- 5.5.1 Except for residential development, if a development is the subject of an application for planning approval and does not comply with a standard or requirement prescribed under the Scheme with respect to that development, the local government may, despite the non-compliance, approve the application unconditionally or subject to such conditions as the local government thinks fit.
- 5.5.2 An application for planning approval requiring the exercise of the discretion under clause 5.5.1 above is to be advertised in accordance with clause 9.4 and the notice of the application is to include such reference to the variation sought to any standard or requirement as the local government thinks fit.

5.5.3 In considering an application for planning approval under this clause, the local government is to have regard to any submissions received in accordance with the advertising of the application under clause 9.4.

5.5.4 The power conferred by this clause may only be exercised —

- a) subject to the exclusions, limitations, maximums and other provisions set out in Schedule 13;
- b) if the local government is satisfied that approval of the proposed development would be appropriate having regard to the matters set out in clause 10.2; and
- c) if the local government is satisfied that the non-compliance will not have an adverse effect upon the occupiers or users of the development, the inhabitants of the locality or the likely future development of the locality.

## 5.6 Environmental conditions

5.6.1 Environmental conditions to which the Scheme or any amendment to the Scheme is subject are incorporated into the Scheme by Schedule 10 of the Scheme.

5.6.2 Where appropriate, the environmental conditions are indicated on the Scheme Map by the symbol “EC” to indicate that environmental conditions apply to the land.

5.6.3 The local government is to —

- (a) maintain a register of all relevant statements published under sections 48F and 48G of the Environmental Protection Act; and
- (b) make the statements available for public inspection at the offices of the local government.

*Note: Environmental conditions are those required to be incorporated into a Scheme or an amendment to a Scheme following assessment under the Environmental Protection Act 1986.*

## 5.7 Building height

5.7.1 In this clause —

**“building height”**, refer to definition in Part 1, clause 1 of the Deemed provisions.

**“Storey”** means that part of a building between the top of any floor and the top of the floor next above, or if there is no floor above, between the top of the floor and the ceiling above it; but does not include any undercroft space designed or used for a lift shaft, stairway, meter room, bathroom, shower room, laundry, water closet, other sanitary compartment, cellar, corridor, hallway, lobby, the parking of vehicles, storeroom without windows or workshop appurtenant to a car parking area, where that floor-to-floor or floor to-ceiling-space as defined herein is not higher than 1 metre above the footpath level measured at the centre of the land along the boundary

to which the space has frontage, or where that floor-to-floor or floor to-ceiling-space as defined herein is below the level of the natural ground level measured at the centre of the site as determined by the local government.

**“wall height”**, refer to definition in Part 1, clause 1 of the Deemed provisions.

5.7.2 All buildings shall comply with each of the following maximum heights, as applicable to the building —

- (a) 1 storey
  - (i) *Building Height (inclusive of wall and roof height; including to top of a parapet) - 6.0 metres maximum height.*
- (b) 2 storeys
  - (i) *Building Height – 8.5 metres maximum height.*
  - (ii) *Wall Height (to level of roof) – 6.0 metres maximum height.*
  - (iii) *Wall Height (to top of a parapet) – 7.0 metres maximum height.*
- (c) More than 2 storeys
  - (i) *Building Height – 8.5 metres, plus 3.0 metres for each storey more than 2, maximum height.*
  - (ii) *Wall Height (to level of roof) – 6.0 metres, plus 3.0 metres for each storey more than 2, maximum height.*
  - (iii) *Wall Height (to top of a parapet) – 3.0 metres for each storey up to the highest storey, plus 4.0 metres for the highest storey, maximum height.*

5.7.3 Unless otherwise provided for in the Scheme, all development shall comply with the requirements of Table 2 in relation to height.

*Note:* Development in the Development Zone is subject to the requirements in Schedule 14 and any approved Structure Plan, as required by clause 6.2.

5.7.4 In the Residential Zone the local government may permit a third storey to be located within the roof space of a dwelling, provided that the development complies with the maximum wall and roof height requirements stipulated in clause 5.7.2 and also provided that, in the opinion of the local government, the dwelling will retain the appearance of a two-storey dwelling and will not unduly adversely affect local amenity.

5.7.5 In the case of proposed alterations, additions or extensions to existing dwellings in the Residential, Residential Office, Town Centre, Local Centre, Foreshore Centre and Restricted Foreshore Centre zones, the local government may vary the maximum heights specified in Table 2 and clause 5.7.2, where in its opinion warranted due the circumstances and merits of the proposal, having regard to -

- a) the existing heights of the dwelling;
- b) any relevant Local Planning Policy or Design Guidelines;
- c) any heritage considerations relating to the dwelling;
- d) relevant planning considerations identified in Clause 67 of the *Planning and Development (Local Planning Schemes) Regulations 2015*; AMD 6 GG 04/11/16
- e) adequate direct sun into buildings and appurtenant open spaces;
- f) adequate daylight to major openings into habitable rooms;
- g) access to views of significance;
- h) building design to ameliorate the visual effects of height, including consideration of setting-back the side walls of added storeys from the side walls of existing buildings; and AMD 6 GG 04/11/16
- i) the amenity of adjoining properties, including road and public open space reserves, and the character of the streetscape;

and subject to the development -

- a) not exceeding the permitted maximum number of storeys; or, where that is already exceeded, not exceeding the existing number of storeys; AMD 6 GG 04/11/16
- b) not exceeding the height of the existing dwelling, unless the Council is satisfied with the design and its implications having regard to the above criteria; and
- c) in the Foreshore Centre Zone, the development not exceeding the requirements of clause 6.4.3.1 (a) and (b).

An application for planning approval requiring the exercise of the discretion under this clause is to be advertised in accordance with clause 9.4 and the notice of the application is to include such reference to the variation sought to any height standard or requirement as the local government thinks fit. AMD 1 GG 24/3/15

## 5.8 Vehicle parking requirements – Table 3

Refer to Part 9A of the Deemed provisions.

Refer Part 9, clause 67(2)(s) & (t) of the Deemed provisions.

- 5.8.1 Unless otherwise provided for in the Scheme, where land is to be used for a use listed in Table 3, the car parking spaces of the number specified in Table 3 shall be provided.
- 5.8.2 In the case of a use not listed in Table 3, car parking spaces shall be provided of a number determined by the local government considering the likely demand for parking by the proposed use having regard to the nature of the proposed use, the likely volumes of goods or materials and the numbers of people moving to or from the land,

and the likelihood of traffic congestion on roads or in public places in the locality.

5.8.3 In the Town Centre zone, where the use of an existing building is proposed to change, the local government may permit such change of use notwithstanding that there may be insufficient parking on or near the land, subject to the local government having regard to the nature of the proposed use, the likely volumes of goods or materials and the numbers of people moving to or from the land, and the likelihood of traffic congestion on roads or in public places in the locality.

5.8.4 In the Town Centre, Hotel, Foreshore Centre, and Development 'A' zones, the number of vehicle parking spaces determined to be required by the local government is to be provided as follows —

- a) for Serviced Apartment, Short-stay Accommodation, Motel and Hotel room uses, the required vehicle parking spaces shall be provided on-site with all such spaces provided being for the exclusive use of the occupiers of the accommodation units and key associated staff and being held in common and not permanently allocated to individual accommodation units or other tenancies.

## **5.9 Development requirements – Local Planning Policy Design Guidelines**

5.9.1 The local government may prepare and adopt Local Planning Policy Design Guidelines in accordance with the procedure outlined in clause 2.4, to augment the Scheme provisions with more detail to guide the planning and design of development proposals.

5.9.2 In considering an application for planning approval for land to which adopted Local Planning Policy Design Guidelines apply, the local government shall have regard to the Design Guidelines and shall use them as a basis on which to determine any variation allowed under the Scheme.

## **5.10 Filling of land and height of retaining walls**

In considering applications for planning approval, in relation to the maximum permissible height of land fill and the height of retaining walls the following shall apply —

- (a) on level land, fill will not generally be permitted, as determined by the local government; and
- (b) on sloping land, the local government may permit fill and the construction of retaining walls, provided there is approximately equal cut and fill of the existing ground levels and the amenity of surrounding properties is not unduly adversely affected.

## **5.11 Local Centre zone – mixed-use development**
