11.1 COUNCILLOR MOTION - PROHIBITION ON ADVERTISING ADDICTIVE UNHEALTHY SUBSTANCES AND ACTIVITIES IN THE TOWN OF COTTESLOE

**The Deputation statement and a summary of the reasons for the request:**

Cancer Council WA wishes to make a deputation to Town of Cottesloe Council meeting in support of Item 11.1.

Our vision for a cancer-free future for all Western Australians can be achieved only if we reduce the incidence of preventable cancers in WA. To do this we need to address poor diets, living with overweight and obesity, and alcohol use, among other factors. Building on a report circulated to elected members in May, the deputation will briefly outline the evidence linking advertising of harmful industries and products with poor health outcomes, and reiterate our position that elected members and local governments have an important opportunity to demonstrate leadership by creating healthy advertising standards for their infrastructure.
