

Fossil fuel free Report

Prepared for 350.org.au
May 2014

lonergan research 

Methodology

- The study was conducted among 1,314 Australians aged 18 years and over. Surveys were distributed throughout Australia including both capital city and non-capital city areas as follows:

- Fieldwork commenced on Friday, May 23 and was completed on Monday, May 26, 2014.
- This study was conducted online amongst members of a permission based panel.
- After interviewing, data was weighted to the latest population estimates sourced from the Australian Bureau of Statistics.

Main Findings

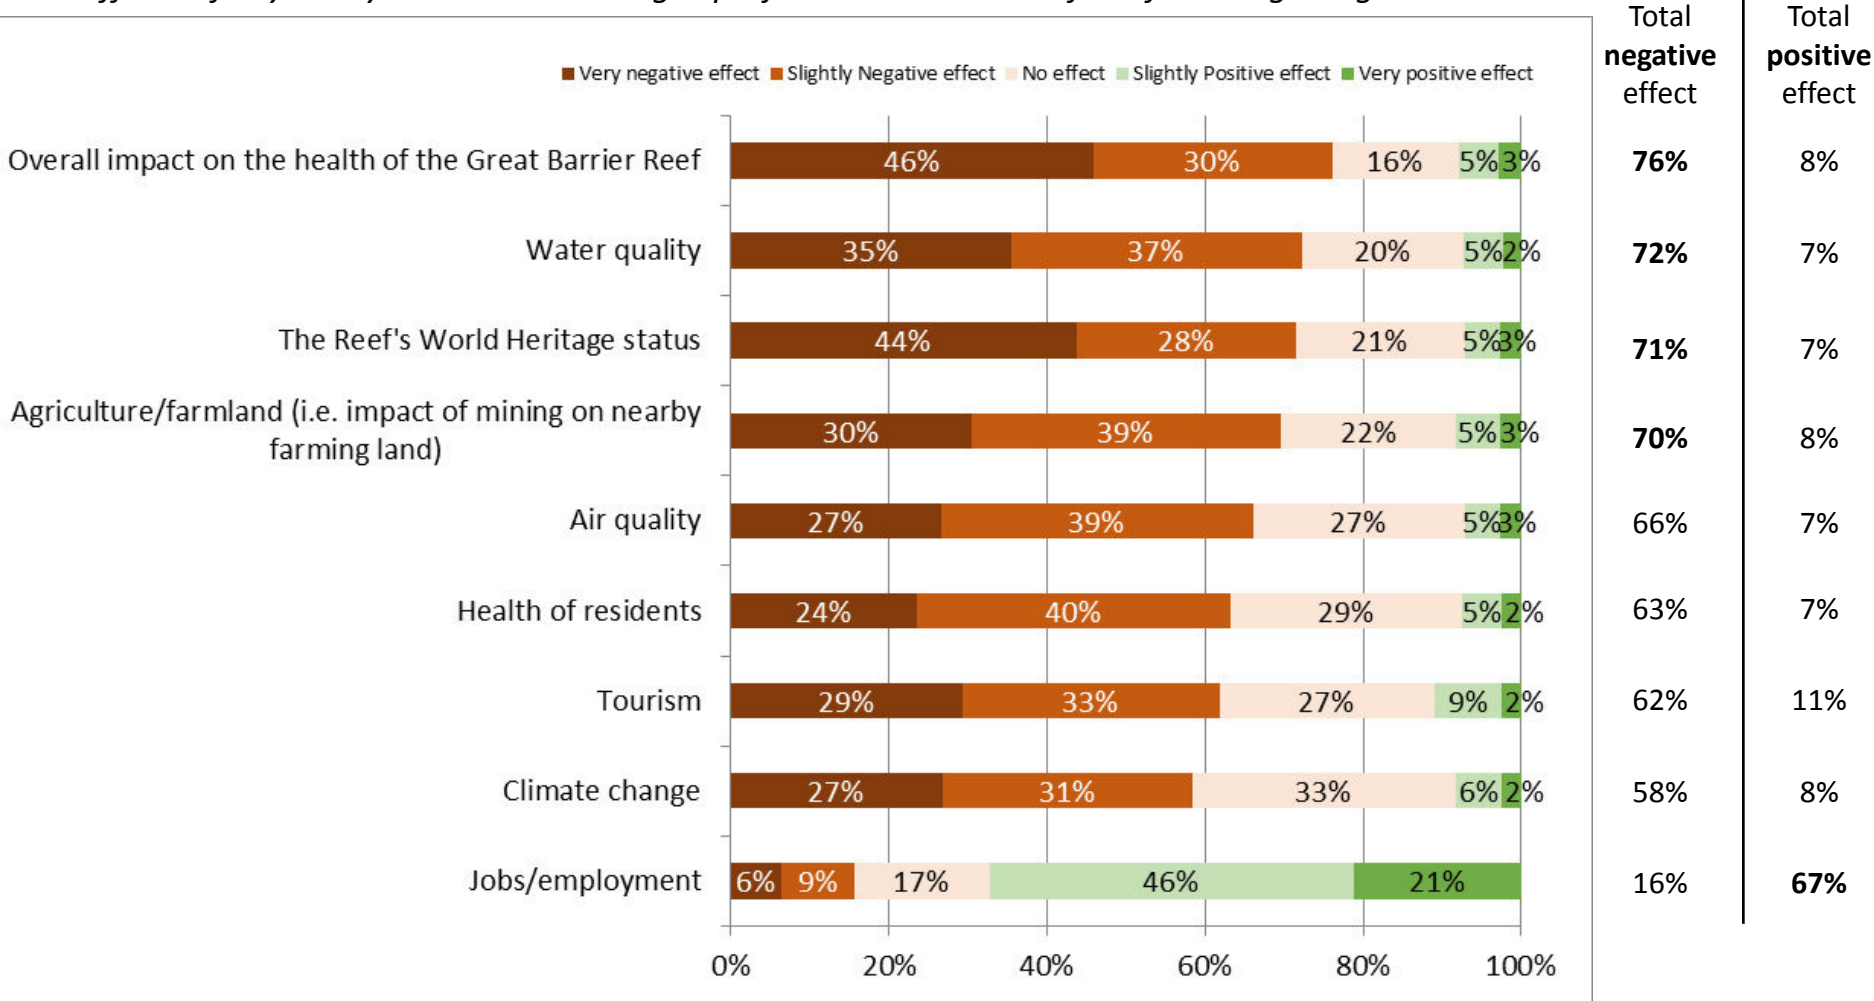

Effects of coal and gas projects on GBR

- Three quarters (76%) of Aussies think that coal and gas projects operating in or near the Great Barrier Reef have a negative effect on the health of the Great Barrier Reef overall, while 7 in 10 Aussies think there's a negative effect on water quality (72%), the Reef's World Heritage status (71%) and on nearby farmland and agriculture (70%).
- Two thirds (66%) of Aussies think that coal and gas projects operating in or near the Great Barrier Reef have a negative effect on air quality, while 3 in 5 think there's a negative effect on the health of residents (63%), tourism (62%) and climate change (58%).
 - Women are more likely to think coal and gas projects in the Great Barrier Reef have a negative effect on the overall impact on the health of the Reef (83%; cf. men 70%), water quality (79%; cf. men 66%), air quality (77%; cf. men 57%) and agriculture (77%; cf. men 63%).
 - Those aged 35-49 are most likely to think coal and gas projects in the Great Barrier Reef have a negative effect on air quality (72%; cf. those aged 18-24 64%, 25-34 65%, 50+ 63%) and the health of residents (69%; cf. those aged 18-24 60%, 25-34 61%, 50+ 61%)

Note: graphs on next slide

Effects of coal and gas projects on GBR

Q. Thinking about the expansion of coal and gas projects operating in or near the **Great Barrier Reef** what effect—if any—do you think coal and gas projects have on each of the following things?

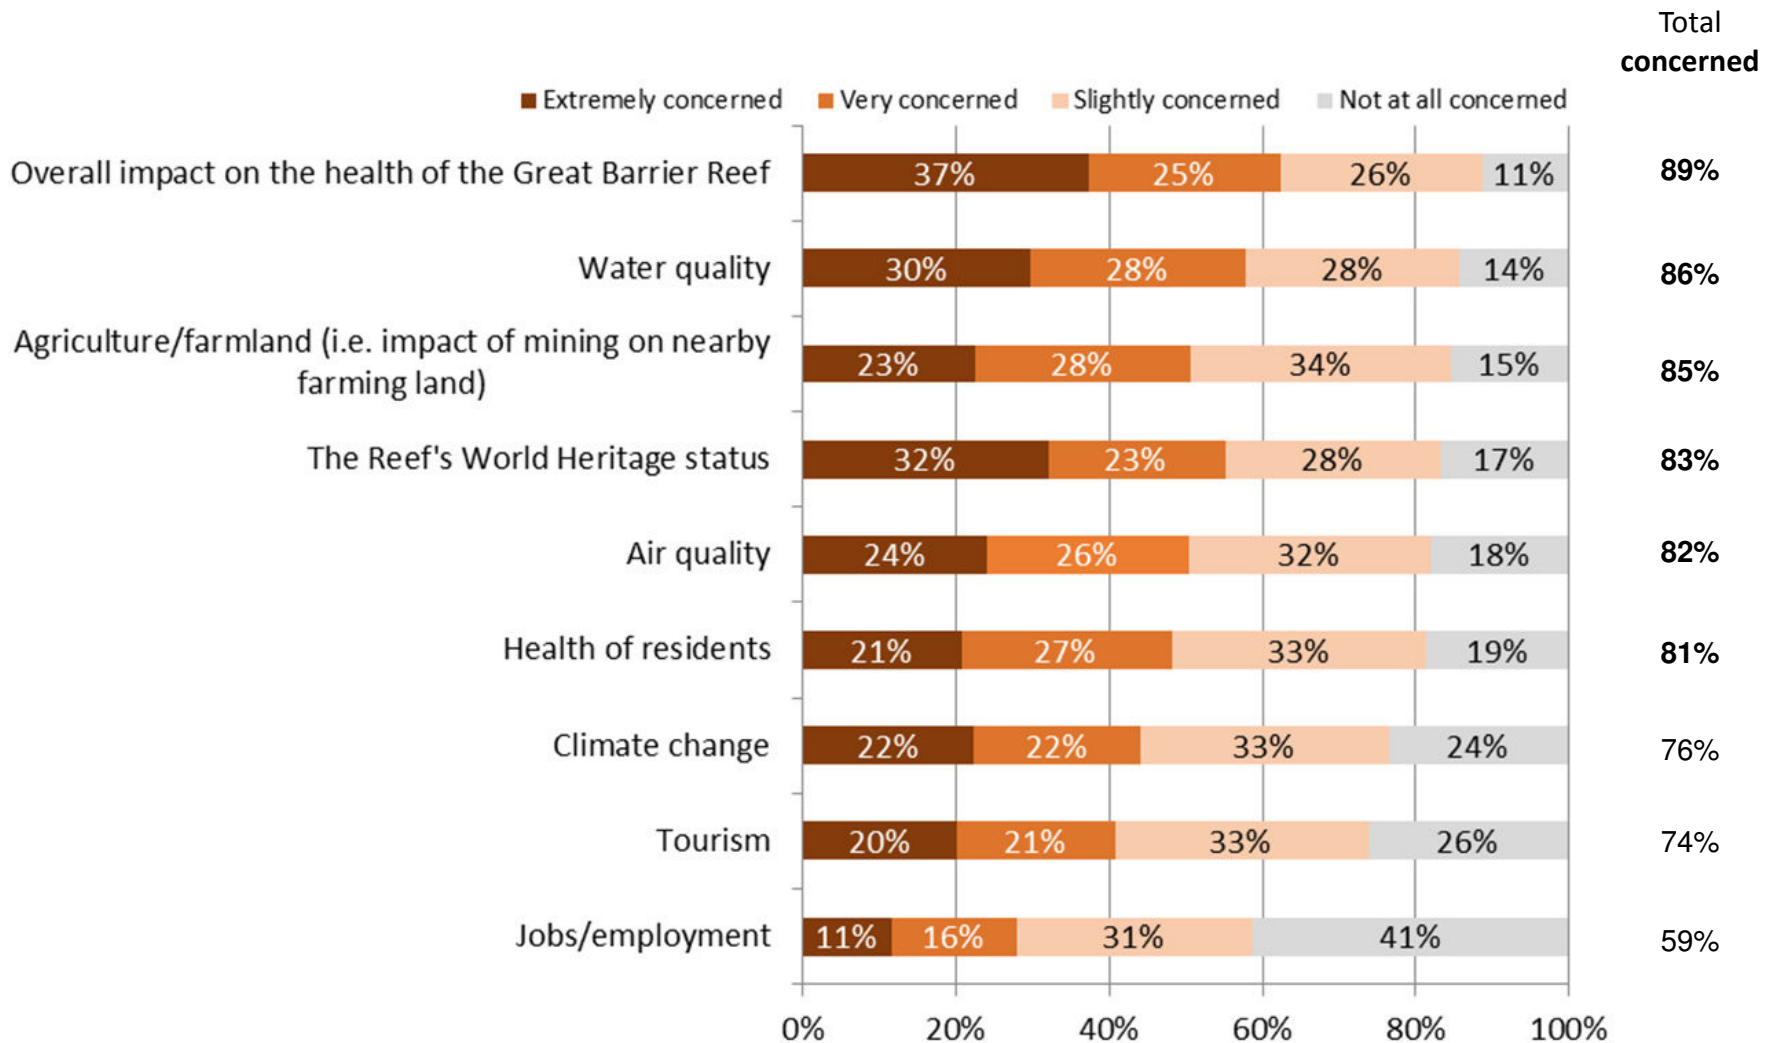

Concern about impact of coal and gas

- Nine in ten Aussies (89%) are concerned about the impact of coal and gas projects on the overall health of the Great Barrier Reef.
- More than 4 in 5 Aussies are concerned about the impact of coal and gas projects on water quality (86%), nearby agriculture and farmland (85%), the Reef's World Heritage status (83%), air quality (82%) and the health of residents (81%).
 - Women are more likely to be concerned about the impact of coal and gas projects on agriculture (87%; cf. men 82%), air quality (86%; cf. men 78%) and the health of residents (86%; cf. men 77%)
 - Young people aged 18-24 are the most likely to be concerned about the impact of coal and gas projects on the overall impact on the health of the Great Barrier Reef (95%; cf. those aged 25-34 89%, 35-49 89%, 50+ 87%), air quality (94%; cf. those aged 25-34 86%, 35-49 83%, 50+ 76%) and the Reef's World Heritage status (93%; cf. those aged 25-34 84%, 35-49 84%, 50+ 80%)

Note: graphs on next slide

Concern about impact of coal and gas

Q. Still thinking about the expansion of coal and gas projects in or near the Great Barrier Reef, how concerned are you—if at all—about the impact on each of the following?

Concerns about bank financing

- 8 in 10 (78%) Aussies would be concerned if their bank was financing coal and gas projects in the Great Barrier Reef.
- Three quarters (76%) of Aussies would be concerned if their bank was financing coal and gas projects in State forests, while 7 in 10 would be concerned if it was in the Kimberley or anywhere in Australia at all (both 72%).

Q. How concerned, if at all, would you be if **your bank** was financing the expansion of coal and gas projects in...?

Concerns about super fund investments

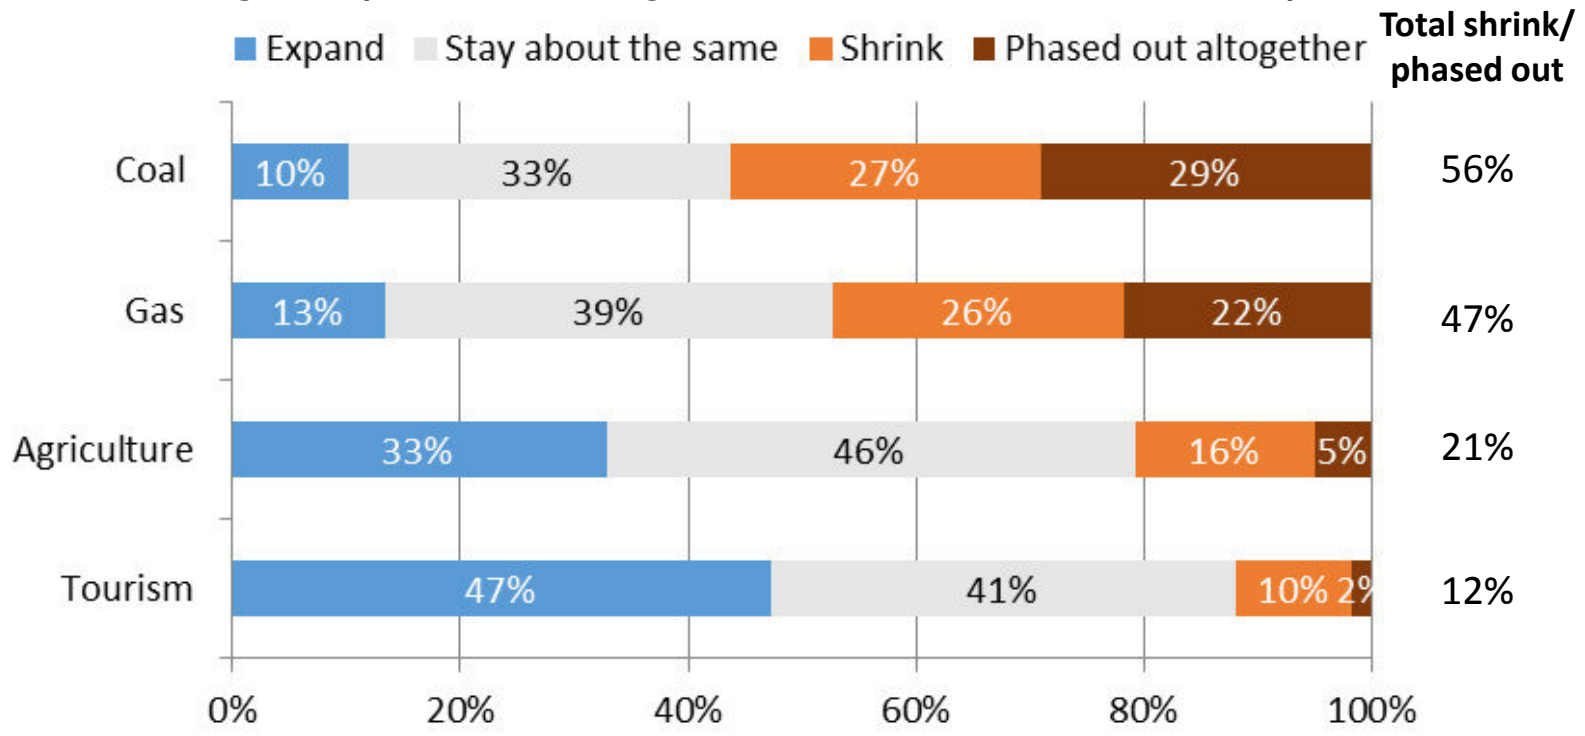

- Almost 8 in 10 (77%) Aussies would be concerned if their super fund was financing coal and gas projects in the Great Barrier Reef.
- Three quarters (76%) of Aussies would be concerned if their bank was financing coal and gas projects in State forests, while 7 in 10 would be concerned if it was in the Kimberley (73%) or anywhere in Australia at all (72%).

Q. How concerned, if at all, would you be if **your superannuation fund** was investing in the expansion of coal and gas projects in or near...?

Future of industries in the GBR

- More than half of Aussies (56%) would like to see the coal industry in the Great Barrier Reef shrink or be phased out altogether in the long term, while just under half (47%) would like to see the gas industry shrink or be phased out altogether.
 - Women are more likely to want to see the coal industry in the Great Barrier Reef shrink or be phased out in the long term (59%; cf. men 54%)
 - Those aged 50+ are the most likely to want to see the coal industry in the Great Barrier Reef shrink or be phased out altogether in the long term (63%; cf. those aged 18-24 56%, 25-34 42%, 35-49 58%)
 - Those aged 35-49 are the most likely to want to see the gas industry shrink or be phased out altogether in the long term (53%; cf. those aged 18-24 49%, 25-34 34%, 50+ 49%)

Financing of fossil fuel projects in GBR

- 2 in 5 (43%) of Aussies think their super fund or their bank (42%) should be investing less or phasing out fossil fuel investments in coal and gas in the long term.

Q. In the long term do you think your bank and your superannuation fund should invest more or less money in **fossil fuel projects (e.g. coal, oil, gas etc.) in Australia in general?**

Likelihood of switching

- 3 in 5 (60%) of Aussies would be likely to switch banks or super funds if they could switch to a bank or super fund that delivered the same financial returns but did not invest in or finance the fossil fuel industry.
 - Women are more likely to switch banks (63%; cf. men 59%)
 - Young people aged 18-24 are more likely to switch super funds (78%; cf. those aged 25-34 65%, 35-49 63%, 50+ 50%) and banks (74%; cf. those aged 25-34 66%, 35-49 61%, 50+ 54%)

Q. If you could switch to a bank or super fund that delivered the same financial returns, but did not invest in or finance the fossil fuels industry (e.g. coal, oil, gas etc.), how likely would you be to switch...?

Reasons for switching

- The top three reasons Aussies would consider switching to a bank or super fund that does not invest in fossil fuel projects are because they don't want their money invested in projects that could harm iconic areas like the Great Barrier Reef (61%), harm the environment (60%) or human health (53%).
 - Women are more likely to say they would switch because they don't want their money invested in projects that harm the environment (68%; cf. men 52%) or harm iconic areas like the Reef (66%; cf. men 57%)
 - Those aged 50+ are most likely to say they'd switch because they don't want their money invested in projects that harm iconic areas like the Reef (75%; cf. those aged 18-24 54%, 25-34 48%, 35-49 59%) or the environment (68%; cf. those aged 18-24 49%, 25-34 51%, 35-49 61%)

*filtered to those who are likely to switch	
I don't want my money invested in projects that could harm iconic areas like the Great Barrier Reef	61%
I don't want my money invested in projects that harm the environment	60%
I don't want my money invested in projects that harm human health	53%
I don't want my money invested in projects that make climate change worse	48%
I want the money from my super fund invested in projects that improve the world	48%
It feels more aligned with my values	35%
I don't want to support a company that invests in fossil fuel projects	32%
The financial returns are the same or better than my current super fund/bank	24%
I'm concerned about the financial risks of investing in fossil fuels	19%
Other	1%
None of these	8%

Reasons unlikely to switch

- The top 3 reasons Aussies would be unlikely to switch to a bank or super fund that does not invest in fossil fuel projects are because they don't have enough information to change / to justify switching (40%), because it's too complicated to switch (31%) and because they can't be bothered (27%).
 - Women are more likely not to switch banks or super funds because they don't have enough information to change / to justify switching (43%; cf. men 37%) and it's too complicated to switch (35%; cf. men 27%)
 - Men are more likely not to switch banks or super funds because they can't be bothered (30%; cf. women 23%), because all banks are the same (28%; cf. women 20%) and because they think they would lose money (16%; cf. women 7%) and because they think fossil fuels are a good investment (22%; cf. women 15%)

*filtered to those who are not likely to switch	%
I don't have enough information to change / to justify switching	40%
It's too complicated to switch	31%
I can't be bothered	27%
All banks are the same	24%
I consider the fossil fuel industry to be a good investment	19%
All super funds are the same	18%
I think I would lose money	12%
Fossil fuel investments are not important enough for me	8%
I don't know how to switch	3%
I'd prefer to wait until more people switch before I do	3%
Other	8%
None of these	11%

Awareness of 'Carbon bubble'

- Hardly any Aussies (3%) are aware of the carbon bubble, with 97% saying they were unaware of the carbon bubble.

Risks of fossil fuel investments

- 7 in 10 (72%) Aussies are concerned about the risk associated with the reliance of Australia's economy on the fossil fuel sector, while 6 in 10 (57%) are concerned they don't know enough about how their superannuation is invested to properly assess the risks of fossil fuel investment.

The 'carbon bubble' refers to the world's remaining fossil fuel reserves being over-valued. As a result of global action to limit climate change fossil fuel reserves would become 'unburnable' obsolete assets and lose their value, bursting the 'carbon bubble' and delivering losses to those invested in them—including superannuation funds and banks.

Q. To what extent are you concerned about each of the following risks associated with fossil fuel investments?

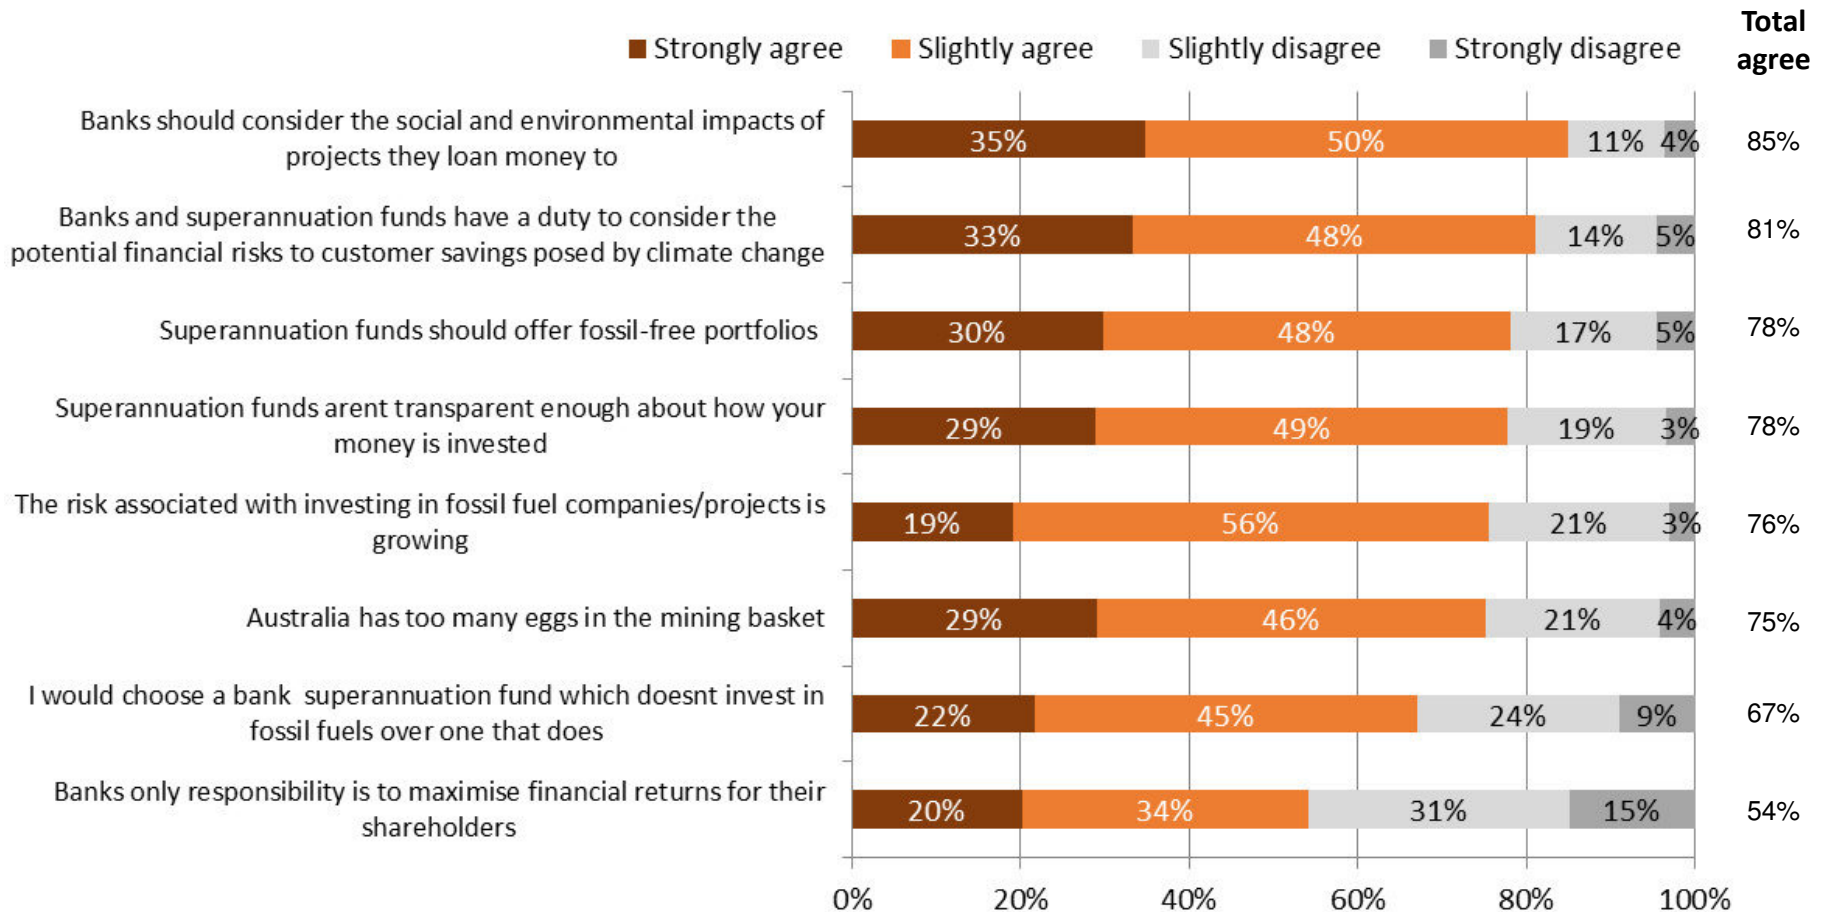

Attitudes to fossil fuel investments

- 8 in 10 (85%) Aussies agree that banks should consider the social and environmental impact of projects they loan money to, while 81% agree banks and super funds have a duty to consider the potential financial risks to customer savings posed by climate change.
 - Women are more likely to agree banks should consider the social and environmental impact of the projects they loan money to (91%; cf. men 80%)
- 8 in 10 (78%) Aussies also agree that superannuation funds should offer fossil-free portfolios and that super funds aren't transparent enough about how members' money is invested.
 - Women are more likely to agree super funds should offer fossil-free portfolios (83%; cf. men 74%)
- Three quarters (76%) of Aussies agree that the risk associated with investing in fossil fuel companies/projects is growing, while 75% agree that Australia has too many eggs in the mining basket.
 - Women are more likely to agree the risk associated with investing in fossil fuel companies/projects is growing (80%; cf. men 72%)
- Almost 7 in 10 (67%) Aussies agree they would choose a bank / superannuation fund that doesn't invest in fossil fuels over one that does.
- Just over half (56%) of Aussies agree that the only responsibility banks have is to maximise financial returns for their shareholders.

Note: graph on next slide

Attitudes to fossil fuel investments

Q. To what extent do you agree or disagree with the following statements?

The Questionnaire

LONERGAN RESEARCH

JOB NO. 0685

INTERVIEWER NAME: _____

QUESTIONNAIRE NO: ____ _

Interview Start Time: ____ / ____

Thank you for agreeing to participate in this survey. Please answer the following questions to see if you fall into the category of respondent we need to interview. You will need to provide a response for EVERY question to proceed with the interview.

Please be assured of complete confidentiality. Lonergan Research is bound by the Market Research Society Privacy Principles.

During the survey, please do not use your browser's **FORWARD** and **BACK** buttons. Instead, please always use the buttons below to move forward through the survey.

- Q1. Where do you live in Australia?
- | | | | |
|---------------------------|----|---------------------------------|----|
| NSW - Sydney | 01 | Queensland – Other..... | 08 |
| NSW – Other | 02 | South Australia - Adelaide..... | 09 |
| ACT..... | 03 | South Australia – Other..... | 10 |
| Victoria - Melbourne..... | 04 | Western Australia - Perth..... | 11 |

* TERM

SECTION A: Great Barrier Reef

This survey is about the expansion of coal and gas projects in Australia, including the mining, shipping and export of coal and gas.

A1. Thinking about the expansion of coal and gas projects operating in or near the **Great Barrier Reef** what effect if any—do you think coal and gas projects have on each of the following things?

Please select one response per row

	Very negative effect	Slightly negative effect	No effect	Slightly positive effect	Very positive effect
Air quality	1	2	3	4	5
Water quality	1	2	3	4	5
Agriculture/farmland (i.e. impact of mining on nearby farming land)	1	2	3	4	5
Jobs/employment	1	2	3	4	5
CONTINUED IF AGED 18+ AND HAVE A BANK ACCOUNT OR SUPER FUND					
Tourism	1	2	3	4	5
Health of residents	1	2	3	4	5
Climate change	1	2	3	4	5
Overall impact on the health of the Great Barrier Reef	1	2	3	4	5

Formatted: Font: Bold

A2. Still thinking about the expansion of coal and gas projects in or near the Great Barrier Reef, how concerned are you—if at all—about the impact on each of the following?

Please select one response per row

	Extremely concerned	Very concerned	Slightly concerned	Not at all concerned
Air quality	1	2	3	4
Water quality	1	2	3	4
Agriculture/farmland (i.e. impact of mining on nearby farming land)	1	2	3	4
Jobs/employment	1	2	3	4
Tourism	1	2	3	4
Health of residents	1	2	3	4
Climate change	1	2	3	4
Overall impact on the health of the Great Barrier Reef	1	2	3	4

A3. How concerned, if at all, would you be if your superannuation fund was investing in the expansion of coal and gas projects in or near...?

Please select one response per row

	Extremely concerned	Very concerned	Slightly concerned	Not at all concerned
The Great Barrier Reef (QLD)	1	2	3	4
The Kimberley (WA)	1	2	3	4
State forests	1	2	3	4
Anywhere in Australia	1	2	3	4

A4. Thinking about each of the following industries, would you like to see each industry expand, shrink, stay about the same size or be phased out in the Great Barrier Reef over the long term?

Please select one response per row

	Expand	Stay about the same	Shrink	Phased out all together
Coal	1	2	3	4
Gas	1	2	3	4
Tourism	1	2	3	4
Agriculture	1	2	3	4

SECTION B: SUPER FUNDS AND BANKS

A number of Australian superannuation funds and major Australian banks invest money in the fossil fuel industry within Australia (including the expansion of coal and gas projects in the Great Barrier Reef). For the remainder of this survey we will be discussing these kinds of fossil fuel investments.

B6. In the long term do you think your bank and your superannuation fund should invest more or less money in **fossil fuel projects (e.g. coal, oil, gas etc.) in Australia in general?**

Please select one response per row

	Invest more money	Invest about the same amount of money	Shrink	Phase out all together	Don't know/Not sure
Your super fund	1	2	3	4	5
Your bank	1	2	3	4	5

B7a. If you could switch to a bank or super fund that delivered the same financial returns, but did not invest in or finance the fossil fuels industry (e.g. coal, oil, gas etc.), how likely would you be to switch...?

Please select one response per row

	Extremely likely	Very likely	Quite likely	Not at all likely
Super fund	1	2	3	4
Bank	1	2	3	4

ASK THOSE WHO WOULD CONSIDER SWITCHING FUNDS OR BANKS

B7b. For which of the following reasons would you consider switching to a super fund or bank that does not invest in or finance fossil fuel projects?

Please select all that apply

ROTATE 1-9.

- MR
- It feels more aligned with values..... 1
 - I don't know my money invested in projects that make climate change worse 2
 - I don't want to support a company that invests in fossil fuel projects..... 3
 - The financial returns are the same or better than my current super fund/bank 4
 - I want my money from my super invested in projects that improve the world..... 5
 - I am concerned about the financial risks of investing in fossil fuels 6
 - I don't want my money invested in projects that harm the environment..... 7
 - I don't want my money invested in projects that harm human health 8
 - I don't want my money invested in projects that could harm areas like the Great Barrier Reef..... 9
 - Other (please specify)..... 10
 - None of these 11

ASK THOSE WHO WOULD NOT CONSIDER SWITCHING FUNDS OR BANKS I.E. CODES 4 in B7a

<p>B7c. For which of the following reasons would you be <u>unlikely</u> to switch banks or super funds?</p> <p>Please select all that apply</p> <p>ROTATE 1-10.</p>	<p style="text-align: right;"><u>MR</u></p> <p>I think I would lose money..... 1</p> <p>I don't have enough information to change to justify switching 2</p> <p>I don't know how to switch..... 3</p> <p>I'd prefer to wait until more people do..... 4</p> <p>It's too complicated to switch (e.g. updating scheduled BPay and credit card payments, moving home loans, alerting your employer etc.) 5</p> <p>I can't be bothered 6</p> <p>All banks are the same 7</p> <p>All super funds are the same 8</p> <p>Fossil fuel investments are not important enough for me..... 9</p> <p>I consider the fossil fuel industry to be a good investment..... 10</p> <p>Other (please specify)..... 11</p> <p>None of these 12</p>
---	---

ASK ALL

<p>B8a. Are you aware of the carbon bubble?</p> <p>Please select one response only</p>	<p style="text-align: right;"><u>SR</u></p> <p>Yes (please specify in as much detail as possible)..... 1</p> <p>A personal loan..... 2</p> <p>None of these 3</p>
---	---

B8b. The 'carbon bubble' refers to the world's remaining fossil fuel reserves being over-valued. As a result of global action to limit climate change (e.g. government regulation, taxation, renewable energy targets etc.) fossil fuel reserves would become 'unburnable' obsolete assets and lose their value, bursting the 'carbon bubble' and delivering losses to those invested in them—including superannuation funds and banks.

To what extent are you concerned about each of the following risks associated with fossil fuel investments?

Please select one response per row

	Extremely concerned	Very concerned	Slightly concerned	Not at all concerned	Don't know/Not sure
Superannuation funds are too heavily invested in fossil fuel projects	1	2	3	4	5
I don't know enough about how my superannuation is invested to properly assess the risks of fossil fuel investment	1	2	3	4	5
The reliance of Australia's economy on the fossil fuel sector	1	2	3	4	5
The lack of investment in clean energy alternatives to fossil fuels	1	2	3	4	5

B9. To what extent do you agree or disagree with the following statements?

Please select one response per row

	Strongly agree	Slightly agree	Slight disagree	Strongly disagree
Banks should consider the social and environmental impacts of projects they loan money to	1	2	3	4
The risk associated with investing in fossil fuel companies/projects is growing	1	2	3	4
Banks only responsibility is to maximise financial returns for their shareholders	1	2	3	4
Australia has too many eggs in the mining basket	1	2	3	4
I would choose a bank / superannuation fund which doesn't invest in fossil fuels over one that does	1	2	3	4
Banks and superannuation funds have a duty to consider the potential financial risks to customer savings posed by climate change	1	2	3	4
Superannuation funds aren't transparent enough about how your money is invested	1	2	3	4
Superannuation funds should offer fossil-free portfolios	1	2	3	4

SR

B10. Thank you for taking the time to complete this survey. I would like to act as a case study (Please provide email address _____) 1
I am not willing to act as a case study 2

Case studies are popular within the Australian media in helping to bring stories to life. If you would be happy to act as a case study to support the findings from this research (this could mean appearing in local or national media), please let us have your email address and you will be contacted in confidence to talk through.

Please select one response only

SECTION Z – ASK ALL RESPONDENTS

- Z1. Finally, a few questions to ensure that we have interviewed a good cross-section of people. Do you work ...? Full time1
Part time2
Not at all.....3
- Z2. Which of these best describes your current marital status? Never married..... 1
De facto or living together..... 2
Married 3
Separated, Divorced or Widowed.. 4
- Z3. Which one of the following categories best describes your total household income before tax? Under \$40,0001
\$40,000 - \$69,999.....2
\$70,000 - \$99,999.....3
More than \$100,000.....4
Prefer not to say5
Don't know6
- Z4. Which of the following describes the highest level of education you have completed? Below Year 121
Completed Year 12.....2
TAFE or technical3
University4
Don't know/ Refused....5

Those are all of the questions. Thank you for your time and participation.

Detailed Tabular Findings

How to read the tables

- These tables contain three different types of figures:
 1. UNWEIGHTED COUNT (UC): This refers to the number of people who fall into each category. The unweighted base generally only appears as the first row of figures.
 2. WEIGHTED COUNT (WC): These figures show an estimate (in '000s) of the number of people in Australia who fall into each category, or who would answer the question in this manner. The weighted figures generally appear just above each percentage figure in the tables.
 3. PERCENTAGE: These are vertical percentages. These can be interpreted in the following manner. "x% of COLUMN HEADING responded to the question with ROW HEADING".

		Total		Gender				Age								State								Capital City									
				Male		Female		18 to 24		25 to 34		35 to 49		50+		NSW/ACT		VIC		QLD		SA		WA		Yes		No
