### **Installation of SPECTUR Shark warning system**

Dear Shaun,

Thank you for the opportunity to attend the recent presentation on the shark warning system proposed to be installed at Cottesloe Beach.

The Cottesloe Surf Life Saving Club supports this initiative and we look forward to having further and more detailed discussion with you around the location and operational protocols of the system.

Please notify us when these discussions will take place so we can ensure the relevant personnel from the Club can attend and have input.

We look forward to seeing this initiative progress to the next steps.

Yours sincerely,

Kim Welch  
General Manager
