## COTTESLOE JETTY HISTORY INSTALLED AT NATURE SPACE

The Cottesloe Nature Discovery Space has a brand new entrance - and it's steeped in history! It's made out of wood that formed part of the old Cottesloe Jetty.

When the Town commenced work to build new access stairs at Cottesloe Main Beach in August 2020, an excavator uncovered burnt out timber and long pieces of intact timber under the concrete and sand. They were from an old timber groyne that formed a retaining wall at the base of the jetty. The Town salvaged the wood and stored it away safely to use for something special... a grand new entrance with an amazing story.

Thank you to Cottesloe Coastcare and the Town's outdoor crew for their time and careful work on this very special project.

## SWIMMING POOL SAFETY

With summer just around the corner the Town would like to remind our community of the importance of safe summer swimming in backyard swimming pools. To ensure you have a safe and enjoyable summer please: remain vigilant and always watch children when they are in and around a pool, restrict access – pool gates should always be closed with no climbable objects or hazards next to pool fencing, teach children water safety skills and learn how to respond in case of an emergency.

## NATURE SPACE AWARD WIN

The Cottesloe Nature Discovery Space at South Cottesloe has won a Parks and Leisure Australia 2022 Awards of Excellence, taking home the Playspace Award (under \$500,000).

The Cottesloe Nature Discovery Space site was reclaimed from invasive Victorian tea-tree, rehabilitated and transformed with timber, limestone and revegetation to create a space that allows children to play and discover in the natural environment. The Town would like to congratulate Nature Based Play on this achievement and thank Cottesloe Coastcare for their ongoing care and involvement with this special space.

## SUMMER BRINGS OUT SNAKES

A reminder that as the weather warms up snake activity increases as they emerge from hibernation to bask in the sun. When you are out enjoying our beautiful beaches this summer please keep to the paths and keep an eye out. If you do see a snake do not approach it, they are venomous and could bite. Snake sightings in public areas can be reported to the Town on 9285 5070. Our Rangers are trained to deal with them.
