COTTESLOE FORESHORE RENEWAL MASTERPLAN

The Cottesloe Foreshore Renewal Masterplan is a concept plan for the staged revitalisation of the Cottesloe foreshore. Developed by infrastructure and environmental services company Cardno, key design elements include;

- Shaded parklands with recreational infrastructure such as fitness equipment, a playground, picnic settings and barbecues;
- A coastal boardwalk to connect the public spaces along the foreshore and provide ocean viewing areas;
- Transformation of Marine Parade into an urban promenade where pedestrians, cyclists and vehicles share the street in a low speed environment; and
- Recognition of local history and culture through integrated artworks and interpretive elements.

The Masterplan is an opportunity to enhance the foreshore of Cottesloe. We will be holding two community consultations sessions where you will be welcome to view the plans, speak to staff from Council and Cardno and give feedback. If you would like to have your say on the proposed plans we encourage you to attend;
