2020 Town of Cottesloe
WASTE AND SUSTAINABILITY CALENDAR

Sustainable Transport

Town of Cottesloe
MESSAGE FROM THE MAYOR

It is with great pleasure I present you with the 2020 Waste and Sustainability Calendar. The artworks displayed in the calendar are diligently drawn by students from Cottesloe and North Cottesloe Primary Schools and are based around the theme of sustainable transport.

Many transport systems have significant impacts on the environment by consuming large quantities of energy and creating carbon emissions while burning fossil fuels such as petroleum and coal. There is an estimated 750 million cars being driven worldwide and some predictions say that in the next 40 to 50 years the number of cars will increase more than this rate. Most of them use fuel which is not sustainable.

Sustainable Transport, otherwise known as Green Transport relies on renewable energy and has a low impact on the environment. Social, environmental and climatic impacts are taken into consideration when classifying transport as sustainable.

Using public transportation like the bus or train is a great way to reduce the number of cars being driven, making it a more sustainable form of transport. Sometimes it is the simple but healthy options which are the most sustainable such as walking and riding your bike or scooter.

The themes within this calendar have been wonderfully portrayed by the students who provide tips and messages for travelling in a sustainable future. I hope you find the 2020 Waste and Sustainability Calendar inspiring, as well as providing useful information. Have a safe and happy year.

Phil Angers
Mayor, Town of Cottesloe

SUSTAINABILITY & ENVIRONMENTAL INITIATIVES IN COTTESLOE

The Town of Cottesloe is committed to new and ongoing sustainability and environmental initiatives and programs that help reduce our impact on the environment.

Coastal Monitoring
The Town of Cottesloe has completed five years of coastal monitoring under the Coastal Adaptation and Protection (CAP) grant funding received from the Department of Transport. The program involves shoreline surveys twice per year and monitoring by remote camera units which take photos of three key sections of the coastline every hour during daylight. Comprehensive reports are collated by coastal engineer consultants and are available on the Town’s website. The coastal monitoring project aims to identify coastal hazards to assist with future planning and management of the foreshore area.

Natural Areas Management and Coastcare
Last year the Town continued to restore the coastal dunes by removing introduced weed species and planting 10,000 native coastal species. These help create habitat corridors for wildlife as well as providing dune stability. Cottesloe Coastcare Association volunteers planted over 3,000 seedlings last winter and removed a significant amount of weeds by hand. They were also awarded the Community Group category at the Western Australian Coastal Awards for Excellence. This is a tremendous achievement and the Town continues to work in partnership with Cottesloe Coastcare Association on a number of projects.

Verge Street Tree Planting
Verge street tree planting continued in Cottesloe with an additional 150 trees planted in 2019. The Town aims to increase the tree canopy within Cottesloe and benefits include improved aesthetics, lower urban traffic speeds and lower urban air temperatures. More trees will also help mitigate climate change through contributing to urban forests and will support native bird species whose natural habitats are diminishing through urban development.

Principal Shared Path (PSP) Greening Masterplan
Construction of the PSP bike path was completed in 2019. A Greening Masterplan was compiled and future works will include revegetation along the new path between Grant Street and Victoria Street. Native species will be sourced to help create a habitat corridor.

Waterwise Council
Cottesloe is a Waterwise Council endorsed through Water Corporation and Department of Water’s Waterwise Councils program. The Town continues to investigate ways to reduce our water consumption and is aiming for Gold Endorsement through running many water initiative programs.

Native Waterwise Verge Rebate
The Town offers a rebate of $15m² with a maximum claim value of $500 to residents who are eligible as per conditions on the Application form found on the Town’s website. This initiative aims to reduce water use by converting grass to native waterwise vegetation and supports local biodiversity.

Garage Sale Trail
Garage Sale Trail is a national event and encourages all Australians to take part by putting second hand first which helps promote sustainability. In 2019 a number of sales were held in Cottesloe.
WHAT’S ON
To keep up to date with events happening in the Town visit cottesloe.wa.gov.au/what’s-on

HERE ARE SOME EVENTS TO LOOK OUT FOR:

Every month (first Sunday) – Cottesloe Coastcare Monthly Busy Bees
Cottesloe Coastcare Association meet on the first Sunday of every month at various coastal sites to carry out restoration projects including planting and watering native seedlings, weeding and erosion control works. Join these hard working volunteers and make a difference to coastal conservation. Visit www.cottesloecoastcare.org

October - Garage Sale Trail
Garage Sale Trail will be held over the weekend of Saturday 17 and Sunday 18 October 2020. Participate in selling and/or buying pre-loved goods and put second-hand first to minimise our impact on the planet. Visit www.garagesaletrail.com.au

July - Plastic Free July
Join millions of people around the world who ‘Choose to Refuse’ single use plastic during July. This movement is helping people be part of the solution to plastic pollution and is helping us create cleaner streets and oceans. Visit www.plasticfreejuly.org

October - Waste Watchers Program
Western Metropolitan Regional Council (WMRC) Waste Watchers Program provides a collection of workshops and upskilling activities to help you live a low-waste, sustainable life. To stay informed of the latest community workshop, recycling facility tour, volunteer event, school visit or networking opportunity, sign up to the “What’s the Word on Waste?” newsletter (www.wmrc.wa.gov.au/news-events/newsletter) or follow them on Facebook.

March - Clean Up Australia Day
Join us on the beach on March 1 and Step-up to Clean-up by picking up litter before it enters the marine environment. Sign up at cleanupaustraliaday.org.au and search for ‘Town of Cottesloe’. 

May - Native Plant Subsidy Scheme
Residents can purchase up to 80 native plants at a subsidised cost of only $1.50 per plant during May 2020 under the Western Suburbs Regional Organisation of Councils (WESROC) scheme. Visit APACE Community Nursery at 1 Johannah Street, North Fremantle, with proof of residency to purchase your native seedlings.

The Cott Cat Shuttle bus
The Cott Cat is a free shuttle bus provided by the Town of Cottesloe, sponsored by the Public Transport Authority. The service runs during the Sculpture by the Sea exhibition.

WHEN:
Sculpture by the Sea, 6 to 23 March 2020
10:30am to 6pm

WHERE:
Departs from the Cott Cat bus shelter at Cottesloe train station and runs on a continuous loop to North Cottesloe and main Cottesloe Beaches.

COST:
Free

SUSTAINABLE TRANSPORT IN COTTESLOE
Bike paths in Cottesloe
The Town of Cottesloe supports and encourages sustainable transport. The recent construction of the Principal Shared Path (PSP) ensures bike users can safely cycle from Grant Street to Victoria Street along the train line. The dual use path on Forrest Street provides a safe and direct commute between Cottesloe train station and the beach.

Buses and Trains Servicing Cottesloe
Bus numbers 98, 99, 102, and 107 service Cottesloe. There are three train stations within Cottesloe including Victoria Street, Cottesloe and Grant Street train station. They are all within walking distance from the beach (maximum 1.1km from Grant Street train station). Bikes are allowed on trains outside of peak hours. See transperth.wa.gov.au for more information.

Thank you very mulch

Remember, transport that is... Greener IS Cleaner for the earth.

‘Let’s Make This Train Full!’

Ruby Year 5 Cottesloe Primary
PUBLIC TRANSPORT IS BETTER FOR THE PLANET THAN EACH ONE OF US DRIVING A CAR
In Perth a full bus load of passengers can take more than 50 cars off the road; and a full passenger train carrying 1000 people can take 800 cars off the road - equivalent to a 5km line of traffic.

**GREEN BIN**
Use our new paths to ride or scoot or maybe just walk!

Take a little time to think what a favour you would be doing.
**NON-SUSTAINABLE TRANSPORT HAS NEGATIVE IMPACTS ON THE PLANET**

Road transport is a major contributor to local air pollution and smog. Sustainable transport options can reduce our impact.

**TRAINS AND BUSES ARE A GREAT FORM OF SUSTAINABLE TRANSPORT**
Using public transportation such as the bus or train is a good way to reduce the number of cars on the road and is better for the environment.

Cnr of Brockway Rd & Lemnos St, Shenton Park | Open 7 days
Weekdays: 7:30am – 3:45pm | Weekends: 10:00am – 1:00pm
Recycling Hotline: 9384 6711

Proudly supported by
Town of Claremont | Town of Cottesloe | Town of Mosman Park | City of Subiaco | Shire of Peppermint Grove
The Town of Cottesloe offers a three-bin service to all residents. Bins must be placed out on your verge before 7am on your designated collection day.

Cottesloe, let’s sort what goes where

AVOID PESTS
To avoid problems associated with pests (and odours), please ensure you:

- Wrap perishable foods in newspaper.
- Freeze seafood and odorous waste until collection time.
- Close the bin lid.
- Clean the bin regularly.

CONTACT INFORMATION
Town of Cottesloe Civic Centre
109 Broome Street,
Cottesloe WA 6011
Tel: 9285 5000
Office hours:
Monday to Friday: 8.30am to 4.30pm

WMRC Transfer Station
Corner Brockway Road and Lemnos Street,
Shenton Park
Tel: 9384 2544
Hours of Operation:
• Monday to Friday: 7.30am to 3.45pm
• Weekends: 10am to 1pm
• Public Holidays: 7.30am to 1pm
• Closed Christmas Day, New Year’s Day and Good Friday

Printed using petroleum free inks and to the highest environmental standard on FSC® accredited paper. Both paper manufacturer and printer are certified to the international environmental management standard ISO14001.
The Town provides two collection services each year for general junk (bulk) and one collection for green waste. The collections commence at 7am on the Monday following the scheduled place out date. Verge collections must be placed neatly on the verge no more than one week before your scheduled collection date. (For those residents without a verge please contact the Town on 9285 5000 to make arrangements for collection).

Details for collection dates will be available on the Town’s website and Facebook page. Visit www.facebook.com/townofcottesloe to like our page and receive all the latest updates.

**GREEN WASTE**
**What can I put in my green waste**
- All Garden waste including tree and shrub cuttings.
- Cuttings should be no longer than 1.5m and 250mm in diameter.
- Green waste bags are available for purchase from the Town's administration building; the bag can be used for leaves and lawn clippings (your emptied bag will be returned to your property).

**BULK WASTE**
**What can I put in my bulk waste**
- Bulk waste includes old furniture, appliances, electronic waste, timber products and white goods (doors must be removed from fridges and freezers).

**WASTE THAT WILL NOT BE COLLECTED**
- Asbestos
- Building rubble
- Tyres
- Hazardous chemicals and poisons (paints, motor oils)
- Large tree trunks
- Flammable liquids
- Gas cylinders

**OTHER SERVICES**
**Household Battery & Mobile Phone Recycling**
- battery & mobile phone recycling bins are located at the Town’s Administration office.

Recycling Services – the WMRC Transfer Station accepts a variety of recyclable materials.

(Recycling Hotline – 9384 6711)

**Tip Passes**
Residents can purchase tip passes from the Town’s Administration office for the JFR Resource Recovery Centre.

The subsidised rates are:
- $37.00 for a Green Waste Pass.
- $55.00 for a Mixed Waste Pass.

Please note that the above charges are per 6x4 trailer load.
